WHO AM I: One who likes to challenge himself. Keep trying new areas to enrich knowledge and capabilities. Have good logical thinking and self-learning ability.

EDUCATION

2019-2022
Ohio State University
(USA)

Computer Science
Studying computers and programming languages. Have a good foundation of math and problem-solving. Participated in research work

2017-2019
Harbin Engineering University
(China)

Mechanical
Studied mechanical engineering for two and a half years, and be familiar with mechanical basics physical mechanics, and modeling software.

2014-2017
Shanghai ShangDe Experimental School
(China)

High school
Studied physics, chemistry and biology, and have a good foundation in science and engineering.

EXPERIENCE

2022
Electrical and Computer Engineering (OSU)

Undergraduate Student Teaching Assistant

Tutoring and grading homework, holding office hours, and managing course grades

2021-2022
Microsystems and Nanosystems Laboratory (OSU)

Undergraduate Student Research Assistant

Assisting professor training AI model for live cell identification and classification. (Application of AI)

2018-2019
Student Residence Office (HEU)

Counselor Assistant

Assisting the instructor to manage the student apartment.

2018-2019
Engineering Small Pocket (WeChat Public Account)

Co-Founder

WeChat public account (a media platform) promotes school activities, news and interesting things, with 20,000 followers.

2017-2019
Student Union (HEU)

New Media Minister

Promotion and planning of student union activities as well as video planning, shooting and production.

PERSONAL QUALITIES
